UBJECT INDEX

bortion Act (1967), 34, 463
erial spraying, danger of 619
erospace industry in Europe 352
frica, geothermal activity investigation in 70
ggression, and heart disease 409
and violence, theory on 566
ir defence systems, computerised 688
ir-pollution monitoring, Netherlands 199, 302
system, laser-diode 489
trials at London Airport 302
ir traffic control system, Mediator 486
ircraft, bird strikes, incidents and costs 197
Concorde, automatic flight control system 120
sonic boom, financial claims 385
fighter, remote controlled 154
load distribution, trimming device 427
Multi-Role Combat, future of 502
Russian, certification of 243
SST, in US, future of 548
STOL, Buffalo modification in US 69
US supersonic transport programme, halt in 51
V/STOL, and third London airport 572
ircraft engine, design, advances in 115
future of 378
RB 211, future of, inquiry team 442
Rolls-Royce, earliest 574
ircraft industry, carbon-fibre composites applications in 366
ircraft landing, computer monitoring system 246
runway control; correction 88
ircraft noise, Rolls-Royce achievements in field of 296, 448
irfields, hawk patrols at, pill to control moult 244
irport noise, costs 101
predicting 604
irships as cargo vehicles 629
laska, oil pipeline, ecological hazards 294
oil pollution and Arctic ecology 448
lcoholics, imprisonment, futility of 233
lloys, superplastic, applications 196
lmevax rubella vaccine, production of 3
mnesia and recall 347, 706
mnesties and protests 29
MP, cyclic, various roles of 288
nimal husbandry, antibiotics use in, regulations 433
intensive, stress in, assessment of 560
nimals, tropical, wintering out in zoos 13
use in research, Littlewood committee recommendations 284
ntibiotics, government advisers on use of 572
use in animal husbandry, regulations 433
pollo 14, experiments in weightlessness of materials 9
experiments on Moon 187
modifications 196
pollo 16, crew members 695
pollo flights, value of 185
pollo lunar programme, achievements 187
pples, last word on 169
Archaeology and urban development 53, 76
Archaeology in Britain 168
Archbishops' Commission on Christian Doctrine, Prayers for dead 149
Architectural Association School of Architecture, financial problems 226
Architectural Design for Retarded, Centre for, support 251
Arctic ecology and Alaskan oil pollution 448
Ardrey, R., views on violence and aggression 566
Armoured vehicle, floats for 553
Art, laser applications 146
last word on 659
Art of Travel, review of book 451
Arts men, scientific illiteracy among 122
Asbestos, crocidolite, health hazard 102, 275, 433
Asbestos dust in children's lungs 443
Ascent of Man, television series, preparations 122
Ashby, Sir Eric, Bernal lecture at Royal Society 574
profile of 558
Asparaginase, use against leukaemia 171
Association of British Science Writers, committee members 385
Association of Scientific, Technical and Managerial Staff, recruiting campaign 628
Astronauts, observations of cosmic-rays 540, 596
on Moon, increased heart rates of, causes 286
Astronomical Observatory, High Energy, NASA 345
Astronomy, optical, in Australia 660
X-ray 534, 598
Atherley, G., chair of safety and hygiene 694
Atmospheric chemistry, monitoring programme 289
Atomic Energy Authority Bill 128
superannuation schemes 79
Atomic Weapons Research Establishment (Aldermaston) projects 502
Auerbach, I., computer use in job selection 210
Babies, cot deaths 150, 275, 448
unborn, sex-tests 606
Bacteria, in central heating water 429
resistance to penicillin 661
Bacteriophage T4, mode of action 670
Ball lightning, source of 661
Bard, B., biographical note 33
Barnacles, cementing mechanism 599
Baryons, omega-minus particles, detection of 409
Batteries, zinc-air, energy densities 552
Bedford College, J. Black appointment to 384
Behavioural science, Project Cambridge 421
Benzene, structure 107
Biologists at Sussex University, attitudes to science 174
Biology, developmental, ethics of 174
Birds, American, thermoregulators 328
game, phenoxy herbicides effect on 593
illustrations 629
in flight, wing and heart beats 57
tropical, wintering out in zoos 13
Birds' eggs, sale of 579
Birth control serum 122
Birth rate and contraceptive pill 283
Black holes in space, observations 104
Black, J., appointment to Bedford College 384
Blind persons, vision substitution system for 384
Boat, rigid sail trimaran development 264
Boat Race, comment on 86, 395
Body harness, carbon fibre, for armless children 613
Bone fractures, electric current to speed mending 551
Books, school, taxation of 28
Bowen, Edward, retirement of 628
Boyd, J.M., director of Nature Conservancy in Scotland 33
Brain, communications within 609, 704
information processing and encoding 107
Bridge, Oland, project, in Sweden 22
steel, economics of 490
underwater, to cross Strait of Messina 36
British Association for Advancement of Science, BSSRS comments on 330
British Coal Utilisation Research Association, closure of 101
British Nuclear Fuels, investments in 128
British Society for Social Responsibility in Science, activities at BA meeting 330
debate on 300GeV accelerator 694
Bubble chamber, hydrogen, neutrino-proton interaction in 106
propane, explosion proof housing for 612
ultrasonic, advantages 660
Budget forecasts and economy 667
Building industry, helicopter-type lifting tackle for 681
Building sites, measuring tape on, tension control device 615
Businessmens' convention, addressing 570
Cadmium in petrol, health hazard 443
Cahn, R., on environmental quality 702
Cambridge University, Experimental Physics 478
Canada, academic science in 341
marine science in 195
technology in 242
water pollution in 594
Cancer, breast, and viruses 464
drug 'ICRF 159' 111, 275
early, diagnositic technique for 6
international attempt to find cure for 685
Cancer cells, encephalitogenic factor on 6
Cancer enzymes in foetal cells 230
Cancer research in US 420
Cancer victims, potential, identification of 596
Cancer viruses, features in common 599
temperature sensitive mutants 170, 395
Car(s), depression of brake pedal in, women's ability 36, 152
gas turbine, for clean air 678
Japanese, in Britain, safety standards 619
pollution free, exhaust systems 197
Car crashes, design for survival 306
impact experiments 246
Car engine, Wankel rotary 415
Car exhaust pollution, and Wankel rotary engine 415
Car windscreens, accident statistics 69
Carbon black production from coal 35

Carbon fibre body harness for armless children 613
Carbon-fibre composites, in aircraft 366
in marine environment 366
Carbon fibres, production and usage 138
Cardiac care, electrocution risk during 658
Cavalli-Sforza, L., population genetics 83
Cell growth, contact inhibition mechanism 345
Cem-FIL, glass fibre for reinforcing Portland cement 119
Cement, glass-fibre-reinforced 119
Census in Netherlands, revolt against 406
Central heating, natural gas, ventilation requirements 87, 216
Central heating water, bacteria in 429
CERN, Intersecting Storage Rings, project 250
Chandler wobble and earthquakes, correlation between 105
Channel tunnel project 238, 260
Chemical lasers, future of 65
Chemical reaction rates, computer predictions 347
Chemicals, consumable, health hazards 600
toxicity to fish, tests for 74
Chemistry, atmospheric, monitoring programme 289
